PROFILE

4 years of experience in performance analysis and pricing. Currently Pricing Analyst at Disneyland Paris and pursuing a Master's in Data Analytics at NEOMA Business School. Expertise in SQL, Tableau, Power BI, and dynamic pricing applied to the tourism industry.

PROFESSIONAL EXPERIENCE

Pricing Analyst - Work-Study Program

Disneyland Paris

Sep 2025 – Sep 2026

Paris Area, France

- Performance analysis of offers and data-driven recommendations based on pricing and revenue KPIs: **ADR, PDR, Package Revenue, Room Nights, LOS**.
- Autonomous **performance analyses** (monthly, quarterly, semi-annual) on add-ons DPA One/Ultimate, Reserved View Area, and VIP Tours, cross-referencing sales data, High/Peak calendars, and pricing context — scenarios submitted for VP validation.
- Development of **Tableau dashboards** consulted by Yield Hotel, Yield Park, and Pricing Packages teams for tracking hotel KPIs and premium services.
- Production of reports and **rate/volume analyses** on add-ons (DPA, RVA, VIP Tours) and identification of optimization levers by pricing season and price point.
- Autonomous monitoring of **7 partner hotels** (B&B Hotel, Adagio) following package launches: impact analysis on occupancy, LOS, and revenues.
- **Data quality control during SAP to Snowflake migration**, validating consistency between old and new databases through daily SQL querying.
- Data exploitation and analysis via **SQL, SAP Web Intelligence, and Excel** to ensure pricing reporting reliability.
- **Quarterly presentations** of results and recommendations to Sales, Marketing, and Revenue Management teams.
- Post-mortem performance analyses on hotels, commercial offers, and Disney campaigns.

Product Manager - Reporting & Commercial Performance - Work-Study

Conforama

Aug 2022 – Sep 2024

Paris Area, France

- Production of weekly reports for tracking sales and service offer performance (commercial insurance).
- Analysis of commercial performance to identify trends and recommend optimization actions.
- Contribution to the creation of **Power BI dashboards** and leadership of a reporting redesign project through formalized requirements with IT.
- **Monthly presentations** of performance analyses to over 200 employees.

EDUCATION

Master's in Marketing & Data Analytics

NEOMA Business School

Sep 2025 – Sep 2026

France

- Professional thesis: "Perceptions of pricing fairness in dynamic pricing: impact on consumer trust and purchase intention."
- Coursework: SQL, Python, R, Power BI, Tableau, Machine Learning, Generative AI, BigQuery.
- **PL-300 Certification** (Microsoft Power BI Data Analyst) in progress.

Master's Degree – Grande École Program: Marketing & Digital

ISG International Business School

Sep 2022 – Sep 2024

France
